PROJECTS

StreetRide | github.com/saferiderz/

Google Play: play.google.com/store/apps/details?id=com.saferiderz.streetride&hl=en_US/

Apple App Store: itunes.apple.com/us/app/streetride/id1461678165?mt=8/

- A mobile app that allows cyclists, scooter riders, and pedestrians to report and view issues in their area.
- Responsible for developing the routing and navigation system as well as collaborating on the front-end development including client-side validation for logging in and creating an account.
- Technologies used: React Native, Node.js, Express, MySQL, Sequelize, Bcrypt.

Stock Novice | github.com/kpatel1209/stock-novice/ | stock-novice.herokuapp.com/

- A web application designed to simulate basic stock transactions with real historical prices.
- Responsible for leading the front-end development of the entire application.
- Technologies used: Handelbars.js, Bootstrap, JavaScript, Node.js, Express, MySQL, Sequelize, D3.js.

Munchies | github.com/munchies/ | kpatel1209.github.io/munchies/

- A recipe finder app which receives ingredients entered by the user and finds matches within the Edamam API. If any matches are found, the recipes will be shown with additional information.
- Responsible for designing the entire application as well as incorporating the YouTube API functionality.
- Technologies used: HTML5, Materialize, JavaScript.

PROFESSIONAL EXPERIENCE

Amazon FBA Seller

Amazon.com

Atlanta, GA

Apr 2018 – current

- Independently established, manage, and fully operate my own Amazon FBA business.
- Perform market research and analysis to determine which arbitrage products to sell within profitable niches.
- Created a CLI inventory management application using Node.js and MySQL to assist with tracking inventory.
- Maintain customer follow-up to ensure satisfied buyers and positive product reviews.
- Manage finances, analyze sales reports, and replenish inventory.

Business Operations Analyst

Chainalytics

Atlanta, GA

Feb 2018 – Apr 2018

- Supported internal data-driven processes, such as revenue forecasting, resource planning, and KPI scorecard development, which was aimed at improving visibility for the CEO, CFO and Executive Vice President.
- Collaborated with a team of third-party software developers from Kapta to customize a Key Account Management platform that is effectively utilized to maintain relationships and execute future opportunities with Chainalytics' key accounts.
- Leveraged a SaaS product called Adaptive Insights to develop various financial reports for key stakeholders.

Project Analyst
RouteMatch Software

Atlanta, GA
Nov 2017 – Jan 2018

- Operated the company's Salesforce Project Pulse application and created solutions to help rectify their project managements issues based on my past experience as an Operations Analyst.
- Assisted with the design of an updated workflow and project management application to replace the current processes and systems.
- Tracked and managed project plans, budgets, resource planning, and billing milestones to optimize resource utilization and revenue management.
- Lead daily Scrum standup meetings and formulated weekly team building activities which demonstrated leadership and managerial abilities.

Operations Analyst, Consulting Services
Infor (US), Inc.

Alpharetta, GA
Nov 2011 – Sep 2017

- Served as the primary contact for supporting the day-to-day operations of multiple Global Consulting Organizations.
- Prepared and analyzed weekly reports to provide key leadership and stakeholders with metrics such as project revenue, resource utilization and sales pipeline.
- Managed ad hoc reporting requests for internal and external projects.
- Became an expert user of CA Clarity PPM and was held accountable for the consistency and integrity of data entered against projects by Project Managers and Consultants.
- Assisted with onboarding of new hires and acquisitions by leading training sessions demonstrating the operations of CA Clarity PPM, Salesforce, Infor CRM, and Infor XM.

Project Manager
POHP Events

Norcross, GA
Jun 2008 – Aug 2012

- Trained and managed a team of professional audio/visual technicians in providing clients with professional-grade production equipment for their private events.
- Evaluated statements of work to implement solutions and strategies that produced thriving events under time sensitive deadlines.
- Owned the processes for budget management, resource scheduling, event preparation and design, and venue logistics.
- Held accountable for sustaining excellent condition of equipment, trucks, and other tangible assets.

Lead Production & Shipping Coordinator
FedEx Office

Kennesaw, GA
Jun 2004 – Dec 2008

- Managed printing production quality and efficiency with minimal errors, which reduced the number of re-do orders and increased profit margin.
- Monitored and facilitated all production processes, including the tracking, pick-up and delivery, and quality check process.
- Coordinated all outsourced projects, including document creation orders sent offshore, to ensure timely creation and delivery to end customers.
- Assisted with training team members on up-to-date printing procedures and services.

EDUCATION

Georgia Institute of Technology, Atlanta, GA
Full Stack Web Development Certification, 2019

- An intensive 24-week long boot camp dedicated to designing and building web application.
- Skills learned consisted of HTML5, CSS3, JavaScript, jQuery, Bootstrap, Firebase, Node.js, MySQL, MongoDB, Express, Handlebars.js & React.js.

Kennesaw State University, Kennesaw, GA
Bachelor of Business Administration in Finance – Dean's List 2009 & 2010
