PROJECTS

StreetRide | github.com/saferiderz/
Google Play: play.google.com/store/apps/details?id=com.saferiderz.streetride&hl=en_US/
Apple App Store: itunes.apple.com/us/app/streetride/id1461678165?mt=8/
- A mobile app that allows cyclists, scooter riders, and pedestrians to report and view issues along their commute.
- Responsible for developing the routing and navigation system as well as collaborating on the front-end development including client-side validation for log in and new account set up.
- Technologies used: React Native, Node.js, Express, MySQL, Sequelize, Bcrypt.

Stock Novice | github.com/kpatel1209/stock-novice/ **|** stock-novice.herokuapp.com/
- A web application designed to simulate basic stock transactions with real historical prices.
- Responsible for designing and developing the front-end of the entire application.
- Technologies used: Handlebars.js, Bootstrap, JavaScript, Node.js, Express, MySQL, Sequelize, D3.js.

Munchies | github.com/munchies/ **|** kpatel1209.github.io/munchies/
- A recipe finder app which receives ingredients entered by the user and finds matches within the Edamam API. If any matches are found, the recipes will be shown with additional information.
- Responsible for designing the entire application as well as incorporating the YouTube API functionality.
- Technologies used: HTML5, Materialize, JavaScript.

PROFESSIONAL EXPERIENCE

Amazon FBA Seller *Tampa, FL*
Amazon.com *Oct 2017 – current*
- Self-taught and independently established, manage, and fully operate my own Amazon FBA business where I purchase and sell a wide variety of products on the USA, Canada, and Mexico marketplaces.
- Perform market research and analysis to determine profitable markets and niches to create profitable listings.
- Manage finances, analyze sales reports, and replenish inventory.

Operations Analyst, Consulting Services *Alpharetta, GA*
Infor (US), Inc. *Nov 2011 – Sep 2017*
- Served as the primary contact for maintaining the day-to-day operations of multiple global consulting organizations (GCO) consisting of both business and technical related support.
- Extracted data from Infor SunSystems Q&A and developed weekly Excel reports to provide key leadership and stakeholders with metrics such as project revenue, resource billable utilization and sales pipeline.
- Subject matter expert (SME) for CA Clarity PPM and was held accountable for the consistency and integrity of data entered against projects by Project Managers and Consultants.
- Assisted with onboarding of new hires and acquisitions by leading training sessions demonstrating the user and functionality of CA Clarity PPM, Salesforce, Infor CRM, and Infor XM.

Project Manager
POHP Events

<div align="right">Norcross, GA
Jun 2008 – Aug 2012</div>

- Trained and managed a team of professional audio/visual technicians in providing clients with professional-grade production equipment for their private events.
- Programmed various types of lighting and sound equipment according to venue space and client needs.
- Evaluated agreements and statements of work to implement solutions and strategies that produced thriving events under time sensitive deadlines.
- Owned the processes for budget management, new technology research, resource scheduling, event preparation and design, and venue logistics.
- Held accountable for sustaining excellent condition of equipment, trucks, and other tangible assets.
